President,
IES Vancouver Section

CARL HUESTIS
AXIS LIGHTING

IES Vancouver Section acknowledges and pays our respects to the Indigenous keepers of the traditional and unceded lands upon which our venue and many of the lighting projects are situated: the xʷməθkʷəy̓əm (Musqueam), Sḵwx̱wú7mesh (Squamish), sʔəl̀ilwətaʔɬ, (Tsleil-Waututh) lands.

IN MEMORIAM

KATHLEEN FERGUSON (Jan 21, 1927 - Feb 13, 2026)

Kay Ferguson joined the IES in 1974 and remained a dedicated member for more than 50 years. She was a cornerstone of our Section, serving both locally and regionally with commitment, generosity, and leadership.

One of Kay's most meaningful contributions was her work in education and mentoring. She was passionate about supporting emerging professionals, and her influence will be felt across the lighting industry for generations. Her legacy continues through the annual scholarship established for the children of IES members — a reflection of her enduring belief in learning and opportunity.

Throughout her career, Kay worked with BC Hydro, Quantum Lighting, and later through her own company, Ferguson Light Ideas. She was widely respected for her knowledge, professionalism, and dedication to advancing quality lighting.

Beyond her professional accomplishments, Kay loved to travel and cherished time spent at large family gatherings. She brought warmth, wisdom, and a wonderful sense of humor to those around her.

We will deeply miss Kay, but she will live on in our memories and in the lasting impact she made on our community.

IN MEMORIAM

KATHLEEN FERGUSON (Jan 21, 1927 - Feb 13, 2026)

THE JUDGES

Judges are selected from a broad professional spectrum that represents knowledge of lighting and design excellence. The judging system is based entirely on how well the lighting design does or does not meet the program criteria. This program is not a competition. The program is open to any qualified entrant without limitations to professional affiliations. The category awards are parallel programs created to recognize outstanding lighting design.

AWARD CATEGORIES

Interior Lighting Design

This award recognizes exceptional interior lighting projects that balance the functional illumination of space with the artistic application of light to enhance the occupant's experience.

Outdoor Lighting Design

This award recognizes excellence in lighting design and application in all aspects of exterior lighting. The award celebrates achievements in aesthetics, applied technical acumen, creative solutions to demanding site conditions and advancements to the industry in outdoor lighting applications.

Control Innovation Design

Advanced lighting control solutions can provide significant energy savings, flexibility and other benefits in buildings. This prestigious award recognizes good lighting projects that exemplify the effective use of lighting controls in non-residential applications.

Experiential Design **NEW**

This award recognizes the projects that use the design of lighting as art or for effect. This category recognizes themed or immersive environments, whether temporary, permanent or seasonal.

JUDGING CRITERIA

- Complexity of the Design
- Lighting/Controls Concept
- Integration
- Performance Criteria Achieved
- Visual Effect/Comfort
- Engagement (new for Experiential Design
- Energy & Environmental Design
- Impact (replaces discretionary bonus)
